Dream Ella
Unicorns ARE REAL
IN THE LAND OF magic!

DreamElla loves animals so much she became a pet vet, helping pups like this when they're sick or hurt. It seemed like just another day at the veterinary clinic, but little did DreamElla guess what kind of adventure awaited her...

DreamElla didn't expect her next customer to look so…magical. But Yasmin, a pink fairy, was looking for an animal expert. DreamElla was surprised to find out Yasmin needed help for her *unicorn*! And that unicorns are real in The Land of Magic!

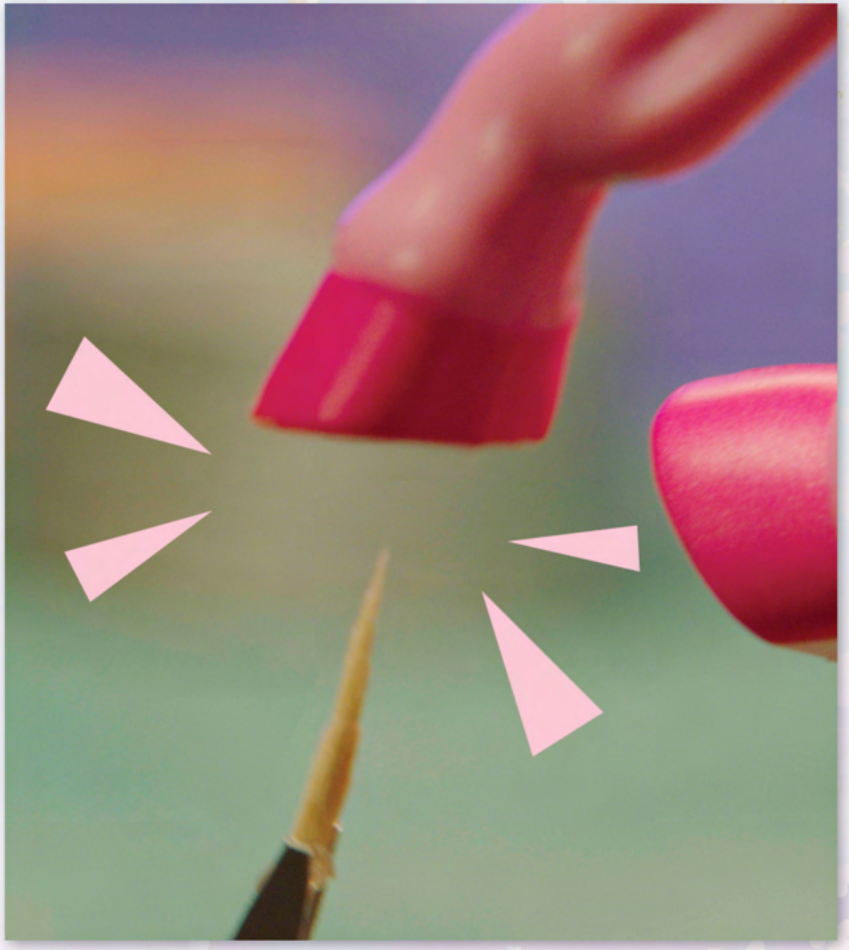
DreamElla could hardly believe it! Yasmin gave her winged fairy shoes to slip on, and in a swirl of sparkles DreamElla was transported to the Land of Magic!

Yasmin took DreamElla to visit her home - a castle in the Land of Magic! And when DreamElla saw herself in the Mystic Mirror she realized she had transformed into a fairy too!

Yasmin introduced DreamElla to her friend Aria, a purple fairy. Aria was watching over Cherry, a pretty pink unicorn with a magical, glowing golden horn.

DreamElla could tell Cherry was sad because she didn't feel well. Aria even baked Cherry's favorite treat–brambleberry biscuits - but Cherry wouldn't even touch them!

DreamElla was a little nervous about examining a unicorn! But she realized unicorns are similar to horses, and she had treated horses before. DreamElla couldn't find anything wrong with Cherry...until she checked her hooves.



DreamElla used her vet skills. She soaked Cherry's hoof in warm water and carefully pulled out a brambleberry thorn.

Cherry felt better right away! In fact, she was so grateful she took DreamElla for a ride in the clouds to thank her! It was a dream come true!

While DreamElla was enchanted by the Land of Magic, Yasmin and Aria explained that they dreamed of being part of the “human world.” Yasmin wanted be a doctor for kids and Aria longed to own her own bakery!

DreamElla's adventure in the Land of Magic taught her that whatever you dream is possible! She invited Yasmin and Aria to come with her to the human world and live their dreams there too!

And so began a magical new friendship! Yasmin, Aria and DreamElla would share the best of both worlds. This was just the first step toward many adventures in the human world and the Land of Magic - and they'd do it all together, being whatever they dream!
